

# Grange/Prestonfield Community Council

## Publicity (Communication) Group Report – March 2011

Communication group met on 1/3/2011 and decided:

- 1- Publish the name, email address and post code of all community council members on web site. To protect personal email of CC members, we are going to create and publish official email address for all CC members in the format of [Forename.Surname@GrangePrestonfieldCC.org.uk](mailto:Forename.Surname@GrangePrestonfieldCC.org.uk)
- 2- A new starting web page for CC should be created with clear information about CC work and its committees.
- 3- Since the domain name is very long (GrangePrestonfieldCC.org.uk), shorted names should be used for domain name. Two shorter names were proposed
  - a. gp-cc.org.uk
  - b. gpcc-ed.org.uk
- 4- Either new domain name would cost about £8.5 for two years. The existing domain name would still function, and would point to the new domain name. So, for example, [Forename.Surname@gp-cc.org.uk](mailto:Forename.Surname@gp-cc.org.uk) and [Forename.Surname@GrangePrestonfieldCC.org.uk](mailto:Forename.Surname@GrangePrestonfieldCC.org.uk) would still both work.
- 5- A public calendar for CC should be created so all members (and public) can access to CC events and meeting.
- 6- CC should be presented in social networking sites such as Twitter and Facebook.

Progress report:

Email about creating official CC email for members was sent to all CC members. Since we are going to buy new domain name(s), creating new Emails was postponed until we buy new domains and then we will create emails using new domains.

New starting web page is under development.

We are studying about free ways of creating calendar for CC.

An account for CC is created in twitter and Facebook. We will use them in the near future.
